

## **ISSUE STATEMENT**

North Hudson Public Works Committee

April 19, 2016

Submitted by Mark Ekblad Public Works Director

### **Issue**

Replacement AUTODIALER for the Krattley Lift Station.

### **Background / Current Information**

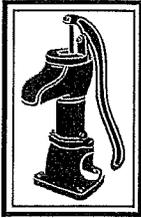

- The Krattley Lift Station was constructed in 2006 as part of the second phase of The Ridges Subdivision, but did not go online until 2010.
- In October 2015, the Public Works Committee approved having Tri- State Pump & Control make repairs to the Krattley Lift Station.
- In December 2015, we started having problems with the Krattley Lift Station Autodialer and I had Tri-State Pump take the unit in to see if it could be repaired.
- In February 2016, Tri-State Pump informed me that they could not repair the Autodialer due to the age of the unit and no replacement parts are available.
- I had Tri- State Pump send me an estimate on a replacement Autodialer (See attached estimate).
- When I was in Green Bay for the WRWA Technical Conference, I met with vendors regarding prices on Autodialers and I feel that Tri-State Pumps estimate is valid.
- Cost for the new Autodialer to come out of the 201 Sanitary Sewer Maintenance Fund.

### **Recommendation:**

I recommend having Tri-State Pump & Control install a new Sensaphone Series 400 Autodialer in the Krattley Lift Station control panel at a cost not to exceed \$1,700.00.

### **Suggested Motion:**

Recommend having Tri-State Pump & Control install a new Sensaphone Series 400 Autodialer in the Krattley Lift Station control panel at a cost not to exceed \$1,700.00. With the cost coming out of the 201 Sanitary Sewer Maintenance Fund.
