Road Improvement Projects Scheduling

In anticipation of another year in road improvements on the County Trunk Highway System, the Highway Department has begun the process of preparing a tentative schedule for maintenance on our roadways.

To help us in our scheduling, we are asking the Towns, Villages, and Cities that may be requesting our services to provide us with a rough estimate, including project length, of what type of projects you may be considering.

We are seeing an increase in the cost of hot mix this season.

Providing us with your tentative 2019 projects within the next couple of weeks would help us in our planning. I realize that some of you have already begun this process with us. However, I ask that you still fill out the attached form.

Please contact me, or any member of our staff, for any assistance we can provide. Thank you for completing this form to help us better serve your needs in 2019.

Sincerely,

Mike Van Keuren
Assistant Patrol Superintendent
Cell (715) 760-1902

Cc: Robbie Krejci, St. Croix County Highway Commissioner
Joel Allen, Patrol Superintendent

Please fill out your anticipated needs for 2019 and return to us via E-mail michael.vankeuren@sccwi.gov or please see page 1 for the fax number. You may also mail to the address on page one.

The prices listed below are general budget figures for you to use as a guide. We will have better knowledge for our estimates the first part of April.

Please note that filling out this form in no way obligates you for this year. It is a rough estimate that will be used for us to make sure we have the materials needed on hand. These materials are strategically placed in certain areas to lessen hauling costs to you.
