

VILLAGE OF NORTH HUDSON

ORDINANCE NO. 05 - 2019

Deleted: \_\_\_\_

AN ORDINANCE AMENDING THE MUNICIPAL CODE FOR  
THE VILLAGE OF NORTH HUDSON, WISCONSIN

The Village Board of the Village of North Hudson, Wisconsin hereby ordains Sections 14-67 of the Municipal Code of the Village of North Hudson, Wisconsin, is amended to read as follows (deletions are indicated strike outs, additions are indicated by underlines):

Sec. 14-67. - Electrical codes.

- (a) Purpose. The purpose of this ordinance is to promote the general health, safety, and welfare and to maintain required local uniformity with the administrative and technical requirements of the Wisconsin Electrical Code and shall include the construction or alteration and inspection of electrical work.
- (b) Code compliance. Except as otherwise provided by this chapter, all installations of electrical equipment shall conform to and comply with the state electrical code including SPS 316 and amendments thereto, the Wisconsin Statutes, this chapter, and any orders, rules, and regulations issued by authority thereof, and with approved electrical standards for safety to persons and property. Where no specific standards for safety are prescribed by this chapter or by the state electrical code, conformity with the regulations set forth in the National Electrical Code and in the National Electrical Safety Code shall be prima facie evidence of conformity with approved standards for safety to persons and property.
- (c) Permit required. Electrical installations are permitted when required as part of other building permits for new construction, alterations, or repairs.
- (d) Electrical inspections. The building inspector shall administer and enforce this ordinance in connection with other inspections as required by this Chapter 14. The building inspector, including any assistant inspectors, shall be certified by the Department of Safety and Professional Services as specified by Wisconsin Statutes, Section 101.66(2), in the category of Uniform Dwelling Code Electrical Inspector. Additionally, the building inspector and any assistant inspectors shall possess the certification category of UDC and Commercial Electrical. Upon completion of the construction and installation of the electrical wiring and equipment of any building, it shall be the duty of the person doing such work to notify the building inspector, who shall inspect the installation within 48 hours of the time such notice is given. All wires which are to be concealed shall be inspected before the concealment, and no other craft shall cover up or conceal such wires until the installation has been inspected and approved by the building inspector. No certificate of inspection shall be issued by the building inspector unless the electrical wiring and equipment for light, power, heat, or other similar purposes is safe both with respect to life and to fire hazard, and is in strict conformity with the ordinances of the village, the statutes of the state, and the general or special orders of the state adopted under authority of the statutes.
- (e) The building inspector shall keep a log of all inspections completed.
- (f) Permit Fee. Permit fees shall be determined as per Sec. 62-3 of this Code.
